

ColorDesigner PLUS

Paint Matching Software

Match Paint Colors Fast

In retail paint, customer service is key, and the faster and more accurately you can match customer paint samples, the more likely they will be to return in the future. Combine ColorDesigner PLUS with an X-Rite color measurement instrument designed for retail paint, and your paint department will stand out from the competition. X-Rite's ColorDesigner® PLUS color matching software expedites and refines the paint selection process, eliminating wasted effort and needless formulation errors.

ColorDesigner PLUS is tailored to the needs of the retail paint environment, part of a complete customized color solution. With one efficient package, the paint department becomes a color design center.

Easy and Intuitive

- Designed to operate with minimal training, preventing mistakes and reducing steps to deliver the best customer experience
- Integrated training videos provide on-site guidance whenever an associate needs it
- Configuration can be determined at headquarters or at time of installation, delivering the package that the store needs without unnecessary additional features

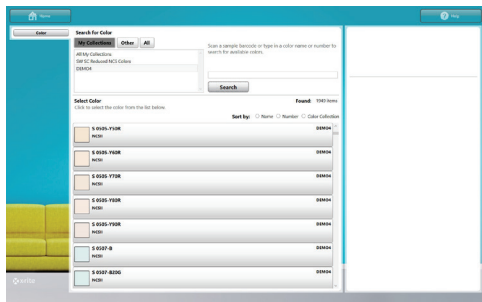

Provide outstanding customer service

- Minimize wait time to serve repeat customers with the ability to capture and save details about past paint orders
- Consistently deliver accurate color through our state of the art algorithms

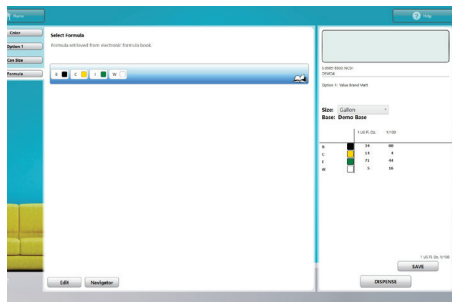

Efficient

- Simplify color searching and matching
- Manage and control dispensers from a single easy-to-use and affordable software system, eliminating the need for a second computer and application and optimizing counter space
- Reduce errors with bar code scanning
- Reduce errors by eliminating unnecessary steps, providing a streamlined and easy process
- Automatic update capability means that ColorDesigner PLUS is up to date throughout the entire store network with no additional effort, discs, or file downloads
- Consistently deliver accurate color through our state of the art algorithms

ColorDesigner PLUS Paint Matching Software

Simplify color searches and matches.

Adaptable user workflow.

Directly manage and control dispensers.

MetaVue

MetaVue, an easy-to-use non-contact imaging spectrophotometer, is the first of its kind to offer superior measurement performance, delivering consistent measurements for precise paint formulation. This instrument provides paint associates the ability to easily respond to a range of different types of customer samples and accurately measure them, building confidence behind the paint counter, and increasing customer loyalty.

i1 Paint

i1 Paint is a cost-effective and easy-to-use handheld spectrophotometer to help retail paint associates color match customer samples. It provides a quality paint match on common samples, including fan decks, color cards, and painted items.
